SOFFI

CREATING HISTORY

Soffi Aksesuar was established in 2014 in İnegöl, widely recognized as the “Capital of Furniture.” From the very beginning, creativity and originality have been the cornerstones of our brand. Instead of replicating readily available designs, we pride ourselves on offering unique and innovative products that set us apart.

As a boutique business in the metal accessory sector, we strive to maintain our distinctive creative vision. We continuously evolve, introducing fresh designs to meet the expectations of customers who seek exceptional quality and originality. Our mission is to bring stylish and high-quality metal furniture into more homes.

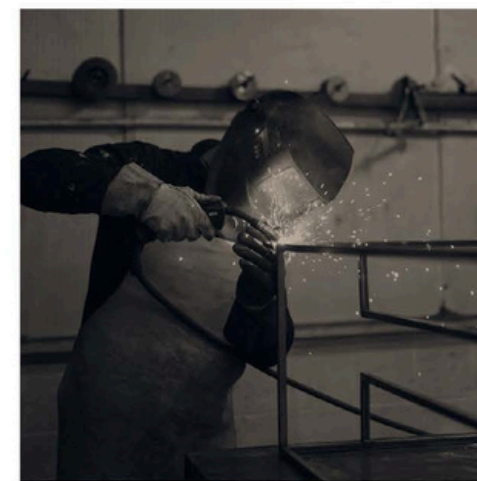

Our product range includes coffee tables, bookshelves, service tables, and more, designed to enhance any space with style and durability. We listen to our customers and adapt to their needs, ensuring every product reflects both functionality and aesthetic appeal.

Our manufacturing takes place in a modern facility, featuring a 10,000 m² open area and a 4,000 m² closed area. With a team of 40 skilled workers and a professional staff dedicated to innovation and growth, we consistently push the boundaries of design and craftsmanship. Over the years, we have earned recognition for our innovation and unwavering commitment to quality in the furniture industry.

We also collaborate with retailers and wholesalers worldwide to bring our distinctive designs to more customers. For designs that stand out from the ordinary, follow us on social media or visit our partner stores to explore our creations up close.
